ABOUT ME

Mechanical Engineering student seeking opportunities to apply technical knowledge, gain practical industry experience and contribute effectively in a professional work environments.

EDUCATION AND TRAINING

08/2023 – CURRENT Coimbatore, India

Bachelor of Engineering in Mechanical Engineering Sri Krishna College of Engineering and Technology (SKCET)

Website https://skcet.ac.in | **Final grade** CGPA: 7.92/10 | **Thesis** Hybrid Solar-Wind Harvesting, Intelligent Solar Maintenance Rover and Smart Charging Station for Desert Applications

06/2021 – 05/2023 Coimbatore, India

Higher Secondary Course Carmel Garden Matriculation Higher Secondary School

Website https://www.carmel.ac.in | **Final grade** Percentage: 88.67%

WORK EXPERIENCE

Titan Company Limited Hosur, India

INTERN

18/05/2026 – 23/05/2026
- Explored watch manufacturing processes and modern production systems.
- Observed plant engineering, utility management, safety and continuous improvement practices.

Ottajees Engineering Coimbatore, India

INTERN

04/05/2026 – 16/05/2026
- Observed industrial welding, fabrication and cladding processes for manufactured components.
- Gained experience in weld quality inspection, defect analysis and testing procedures.

Kannan Tools and Dies Coimbatore, India

INTERN

30/12/2025 – 12/01/2026
- Gained exposure to precision machining and quality inspection of critical components.
- Gained insights into KTD's systematic workflow (RFQ → NPD → PPC → Machining → Quality → Dispatch) and how cross-department coordination ensures defect-free output.

Maruti Suzuki Arena Service Coimbatore, India

INTERN

12/05/2025 – 24/05/2025
- Supported vehicle inspection, maintenance and assembly/disassembly activities.
- Assisted in diagnostic troubleshooting and workshop service operations.

Ashok Leyland Limited Hosur, India

INTERN

10/02/2025 – 15/02/2025
- Assisted in diesel engine assembly, testing and performance evaluation processes.
- Observed machining, component inspection and manufacturing safety practices.

SKILLS

robotics | embedded systems | mechanics | electronics | MySQL | Python (computer programming) | CAD software | Fusion 360Solidworks | Mechanical and Machining skills(including hand working skills)

PROJECTS

10/2026

Vyuha: AI-Driven Robot that Digitizes any place into VR

- Developed an AI-driven bipedal robot for real-time spatial digitization and immersive telepresence in extreme environments.
- Integrated edge-based neural 3D scanning with dynamic bipedal locomotion to enable live virtual reality exploration and autonomous navigation.

09/2026

NEERVA - Smart Water Purification and Quality Monitoring System

- Designed and developed a smart water purification and quality monitoring system using ESP32-based sensors to monitor pH, TDS, turbidity and temperature in real time.
- Integrated multi-stage filtration, UV treatment and dual-stage quality verification with filter-life monitoring and smart alerts to ensure safe and effective water purification.

03/2026

Ncorithm: Large Language Model (LLM) – Integration for Embodied AI

- Developed an LLM-powered AI system for real-time voice interaction and intelligent control of embedded devices.
- Integrated natural language processing with embedded systems to enable intuitive human–machine communication and autonomous responses.

2025

Sthiraprana: Safe – Flow Intelligent Dialysis System

- Designed and developed an earthquake-resilient smart dialysis system with automated patient safety controls.
- Engineered a portable IoT-enabled healthcare solution for uninterrupted emergency dialysis.

2023 – 2024

Gepard Racing: Go - Kart Design and Fabrication Project

- Designed and fabricated a functional go-kart chassis, braking and transmission system.
- Applied mechanical design principles and enhanced system performance in a competitive national-level event.

CERTIFICATIONS

Outskill, **08/2025**

Generative AI Mastermind

Mode of learning: Online

Government Industrial Training Institute, **12/08/2024**

Robot Operator and Programmer

Mode of learning: Work based

iamNeo, **01/06/2024**

Database Management System

Mode of learning: Presential

Siemens, **20/11/2023**

Solid Edge Associate

Mode of learning: Project based

EXTRA CURRICULAR

Technical Events

Actively participating in innovation and technical challenges, including:
• Smart India Hackathon (SIH)
• Techgium – L&T
• KPIT Sparkle.
Worked in teams to develop creative solutions that integrate mechanical systems.
